**Subject:** public comment on federal register FW: INSPECT THESE LAB CESSPOOLS MORE OFTEN THAN EVERY 5 YEARS - YOU ARE CARELESS AND LAZY IN INSPECTION

i think it is time all these people who attend these meetings shuld get off their butts and do more inspections of labs. you can do 4 inspections a day, instead of just sitting on your butts accomplishing nothing for america. someof these clinical labs are complete cesspools. they get away with being cesspools because you only get there maybe once in 5 or 10 years. you owe america better record than that. but you are lazy. i think we need to hire new personnel who have a little energy and work ethic. jean public address if required. this is public comment for public record.
